DETAILED ACTION

Claims 1-15 have been cancelled. Therefore 14-25 are pending in this application. Claims 21-24 are withdrawn from further consideration by the Examiner, 37 C.F.R. § 1.142(b), as being drawn to a non-elected invention. The withdrawn subject matter is patentably distinct from the elected subject matter as it differs in structure and element and would require separate search considerations. In addition, a reference, which anticipates one group, would not render obvious the other.

Information Disclosure Statement

Applicant's Information Disclosure Statements, filed on October 10, 2006 have been considered. Please refer to Applicant's copies of the 1449 submitted herewith.

Response to Restriction

1. Applicants' election with of Group I, claims 14-20 and 25, drawn to the

compounds represented by formula (I),

and specific compound 5,

, depicted on page

Art Unit: 1626

18 of the specification in response filed on November 25, 2008 is acknowledged.

Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Restriction for examination purposes as indicated is proper because all the inventions listed in the Restriction Requirement action are independent or distinct for the reasons given above and in the Restriction Requirement and there would be a serious search and examination burden if restriction were not required because one or more of the following reasons apply:

- (a) the inventions have acquired a separate status in the art in view of their different classification;
- (b) the inventions have acquired a separate status in the art due to their recognized divergent subject matter;
- (c) the inventions require a different field of search (for example, searching different classes/subclasses or electronic resources, or employing different search queries);
- (d) the prior art applicable to one invention would not likely be applicable to another invention;
- (e) the inventions are likely to raise different non-prior art issues under 35 U.S.C. 101 and/or 35 U.S.C. 112, first paragraph.

Therefore the Restriction Requirement is deemed proper and **is maintained**.

Art Unit: 1626

Subject matter not encompassed by elected Group I are withdrawn from further consideration pursuant to 37 CFR 1.142 (b), as being drawn to nonelected inventions.

The scope of the invention of the elected subject matter is as follows:

Compounds of formula I, ,depicted

in claim 16, wherein:

X is nitrogen; Y is nitrogen; Q is C; Z is C; t is 1-4; n is 1; A is a carbocyclic aryl ring; R1-R4 are as defined.

As a result of the election and the corresponding scope of the invention identified supra, the remaining subject matter of claims 16-22 and 25 are withdrawn from further consideration pursuant to 37 CFR 1.142 (b) as being drawn to non-elected inventions. The withdrawn compounds contain varying functional groups such as oxathiepanyl, pyrimidinyl, oxazepanyl, etc, which are chemically recognized to differ in structure and function. This recognized chemical diversity of the functional groups can be seen by the various classification of these functional groups in the U.S. classification system, i.e. class 544 subclass 106(+) (morpholine), class 546 subclass 249(+) (oxathiepanyl), class 540 subclass 215(+) (triazoles), 548 subclass 400(+) pyrrolidines etc. Therefore the subject matter which are withdrawn from consideration as being non-elected subject differ materially in structure and composition and have been restricted properly a

Art Unit: 1626

reference which anticipated but the elected subject matter would not even render obvious the withdrawn subject matter and the fields of search are not co-extensive.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Objections

Claims 14-20 and 25 are objected to for containing non-elected subject matter.
